

**Class: Badgers**

**Barndale Learning Plan**

**Term: 21/22 Summer 1**

**Books to support our learning.**

### **Communication, Language & Literacy**

The children write every day, rehearsing aloud what they want to say, before spelling the words using the graphemes and 'tricky' words they know. They practise handwriting every day: sitting at a table comfortably, they learn correct letter formation and how to join letters speedily and legibly. Children's composition (ideas, vocabulary and grammar) is developed by drawing on their own experiences and talking about the stories they read.

### **Science**

In This 'Forces' unit will teach your class about types of forces such as gravity, friction, water resistance and air resistance. Children will also learn about the use of mechanisms such as levers, gears and pulleys. The children will identify forces and find out about Isaac Newton and his discoveries about gravity, completing a comprehension about his life and his work.

### **Enrichment & Ways to Wellbeing**

This term we will look at positive body image and self-confidence, which are important messages to instil in our young people. We will be looking at how in today's society, with all the images that surround us in the media of the 'perfect body', it can be hard to think and feel positively about our own bodies.

## **Trepid Topography**

### **Knowledge and Understanding of the World**

In this Unit, children find out about the major mountains of the world and the UK. They find out the different ways in which mountains have been formed, and how different features of mountain ranges have been shaped over time.

### **Therapeutic Input**

Some of the class will access their individualised therapy plans from the speech and language and occupational therapy teams. Within class, we will explore texture and touch within PSHE sessions as we use moisturiser and soap to soften our hands.

### **Numeracy & Problem Solving**

In Badger class, your child will add and subtract measurements, will calculate with money, and will be able to talk about and tell the time very accurately. The key words for this section are capacity, mass, and volume. We will also continue to work on times tables and skills learnt this year.

### **Computing**

Our theme this term is computer processes. We will learn at computers operate and use information. We will be learning about how computers sort and categorise information. How to debug algorithms and we will also look at abstract thinking.

### **The Arts**

In art, we will be creating sculptures. Our Artist this term is Henry Moore. After studying his work, we will emulate some of his artwork. In music, we will be learning about different instruments, their categories and the sounds they make. In DT we will be creating an earthquake resistant house.

### **Physical Education**

We will develop our movement, improving our stamina and staying healthy through two weekly PE sessions. Each week, we will be swimming and we will go to the studio.
