

**Books to support our learning.**

**Communication, Language & Literacy**

This half term we will work within our phonics groups in order to develop the skills we need to focus on in order to make progress. Daily Read, Write, Inc. sessions will support our reading and writing skills. We shall also be developing our writing skills in our topic lessons through creating a Grace Darling fact file and writing a diary entry as Grace Darling.

**Science**

In science this half term our topic is scientists and inventors. We will be learning about famous scientists and looking at major scientific inventions from over the years. We shall build on our prior knowledge of materials from last term and carrying out simple tests to investigate which material works best for different tasks. We shall be looking at house hold appliances over the years and attempting to invent house hold appliances for the future. We shall be answering the question, how have scientific inventions changed how we live today?

**Enrichment & Ways to Wellbeing**

During PSHE lessons this half term we will be learning about a respecting people differences between people. We shall be learning about what respect is, why it is important to respect others and how it feels not to be respected. We will be answering the question, why is it important to respect other peoples differences?

**Knowledge and Understanding of the World**

This half term we will be developing our knowledge of local history by learning about the life of Grace Darling. We will learn about how she rescued the survivors of a shipwreck. We will also learn about where she came from and what life was like during the Victorian times when she was alive. We shall also learn about the work the RNLI does today. We shall be answering the question, What is Grace Darling remembered for?

**Therapeutic Input**

As well as input from physio and SALT teams this half term we shall be looking at ways to relax. We shall be completing mindful colouring and drawing activities.

**Numeracy & Problem Solving**

In Maths this half term we will be focusing on statistics. We will be learning about pictograms, bar charts and tally charts. We will be using these to find out which song and colour are most popular in our class. We shall also be learning to interpret information from chart in order to answer questions about what it is telling us.

**Computing**

This half term we be learning to apply the computer skills we have learned this year. We will answer the question, what computer skills have I used to make my picture?

**The Arts**

Our focus in art this half term will be collage. We shall be using a range of materials to create collage pictures. We answer the question what skills do I need to create a collage picture? In Design and technology our focus will be 3D model making. We shall be designing and creating our replica of Grace Darling's boat. We shall be answering the question what skills do I need when working in 3D?

**Physical Education**

In PE this half term we will be taking advantage of the nicer weather and will be taking part in outdoor PE sessions. We shall learn to play rounders, cricket and football. We are also continuing our weekly swimming sessions.
