

**Books to support our learning.**

**Communication, Language & Literacy**

In daily Read, Write, Inc and literacy sessions we will develop our knowledge of speed sounds, spelling and ability to decode words in line with individual targets. We will work toward writing fluent and correctly punctuated sentences that are phonetically accurate. As well as our reading sessions with adults we will listen to a range of stories linked to our topics in guided reading sessions.

**Science**

**What are states of matter?**

In our science topic this half term we will learn about the differences between solids, liquids, and gasses and work be able to identify their properties. We will develop our ability to work scientifically investigating weight of gas, heating and cooling and changing states of water. We will predict, make observations, and draw conclusions from our experiments.

**Enrichment & Ways to Wellbeing**

**How can I get on with others?**

Starting the year by exploring how we can get on with others will help set us up for success as we continue to foster our friendships and build new, meaningful relationships. We will examine our own feelings and how we can express these positively, as well as how we can compromise, treat others with respect, deal with conflict, say sorry and forgive.

**Amazing Americas**

**Knowledge and Understanding of the World**

**What are "The Americas"?**

In our Amazing Americas topic, we will discover origins of The Americas diverse cultures and explore both continents varied landscapes. We will be using maps to identify countries and will be comparing the physical and human geography of different places.

**Therapeutic Input**

Students who require will continue to get weekly input from SaLT, OT and THRIVE. We will also focus on learning strategies to regulate and using the zones of regulation.

**Numeracy & Problem Solving**

Starting the year with place value we will generate a deep understanding of numbers before we applying our knowledge later in the year. We will look at the value of digits within multi-digit numbers depending on our own individual targets, compare and order numbers, as well as solving missing number problems and reasoning problems.

**Computing**

**How can I use word processing software?**

This half term we will be developing our skills to become competent in word processing. We will learn how to change text, cut, copy and paste and use shortcuts.

**The Arts**

**How can I develop my drawing?**

Our skill focus this half term is drawing. During lessons we will be developing our awareness of space and tools for drawing while building our understanding of vocabulary related to line drawing. We will explore the drawings of illustrator Axel Scheffler for reference and inspiration.

**Physical Education**

**What can I do with my body?**

In weekly PE sessions and swimming sessions we will be have a chance to explore ways we can move and develop our coordination skills.
